Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114 was filed in this application after appeal to the Board of Patent Appeals and Interferences, but prior to a decision on the appeal. Since this application is eligible for continued examination under 37 CFR 1.114 and the fee set forth in 37 CFR 1.17(e) has been timely paid, the appeal has been withdrawn pursuant to 37 CFR 1.114 and prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on June 27, 2005 has been entered.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) do not apply to the examination of this application as the application being examined was not (1) filed on or after November 29, 2000, or (2) voluntarily published under 35 U.S.C. 122(b). Therefore, this application is examined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

Claims 1-17 are rejected under 35 U.S.C. 102(e) as being anticipated by Mortimore et al. The claims are directly readable on Mortimore et al in that the quantitative data is considered to be placed in a field other than an image field. It should be noted that applicant states that DICOM is the standard used in the industry to communicate medical files in electronic form. Mortimore et al disclose the use of a DICOM compatible file, see column 3, line 52, column 4, lines 39-41, column 5, line 28.

Claims 1-17 are rejected under 35 U.S.C. 102(e) as being anticipated by Finger. The claims are directly readable on Finger in that the quantitative data is considered to be placed in a field other than an image field. It should be noted that applicant states

that DICOM is the standard used in the industry to communicate medical files in electronic form. Finger discloses the use of a DICOM compatible file, see column 22, lines 47-50.

Response to Arguments

Applicant's arguments filed June 27, 2005 have been fully considered but they are not persuasive. Applicant's remarks are noted, however, the rejection of claims 1-17 stands in view of the teachings of Mortimore et al and Finger which each discloses the use of a DICOM compatible file as discussed above. Applicant's remarks are not fully understood and the claims still appear to read on the prior art of record.

Allowable Subject Matter

Claims 18-27 are allowable over the prior art of record.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ruth S. Smith whose telephone number is 571-272-4745. The examiner can normally be reached on M-F 7:30 AM-4:00 PM.
